FINAL MILE
Residential Delivery

At Estes, we know the final mile matters most because it's the one your customers remember. That's why we've built our Final Mile Residential Delivery service to deliver the kind of reliability and convenience that keeps them coming back.

With our Standard "Front Door" Delivery, your residential consignees experience:

- No appointment or signature requirements
- Doorbell ring or knock upon arrival
- Texts with a secure tracking link to view shipment statuses like Estimated Delivery Date, Out For Delivery, and Delivered, as well as a Next Stop notification
- Delivery to the porch, garage, driveway, or nearest covered area—depending on accessibility

And because all our 300+ terminals are equipped with standard and oversized 8-foot liftgates as well as electric pallet jacks, you can count on us to handle your customers' large and heavy shipments safely and efficiently.

Learn more about our Final Mile Residential Delivery service or contact us today to get started!

FINAL MILE
Commercial Non-Dock Delivery

No dock? No problem. With decades of industry experience, a nationwide network, and the right tools for the job, Estes makes Final Mile commercial delivery easy to locations like strip malls, construction sites, schools, churches, and more.

Our Commercial Non-Dock Delivery offers:

- Nearly 7,000 next-day lanes for fewer freight touches and greater reliability
- Superior freight handling with our oversized liftgates and electric pallet jacks, built to manage heavy, bulky shipments safely
- Real-time shipment tracking with My Estes, from pickup through delivery
- Standard placement at front or rear entrances, or in the nearest covered area
