DRIVING FREIGHT FORWARD

VIDEO CHAT WITH WEBB ESTES

Our President and COO shares updates on Estes' ongoing investment in growing our network, boosting capacity, and ensuring optimal freight protection. Watch here.

LTL INDUSTRY TRENDS AND INSIGHTS

Are you ready for the upcoming National Motor Freight Traffic Association (NMFTA) classification changes? This July, the NMFTA will expand the list of commodities classified by density and add two new classes to all Full-Scale density-based items for LTL freight. Learn more by watching our video and visiting the NMFTA website.

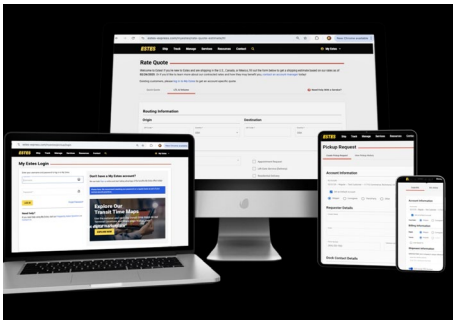

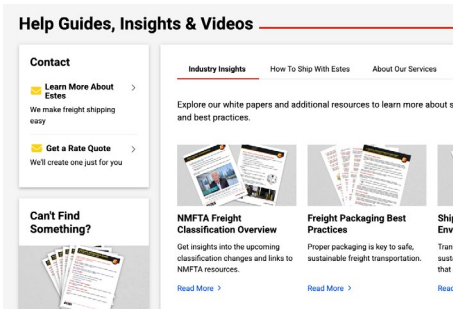

THE LATEST FROM ESTES

Shipping to Canada? Estes has added several new, next-day freight lanes into Toronto from Maryland, Pennsylvania, New York, Virginia and Delaware! And we're now the only national LTL carrier to provide one-day transit into Toronto from New Jersey! Learn more.

SHIP SMARTER

Estes offers a robust suite of digital shipping tools—API, My Estes Shipping Tools, EDI, and TMS— that can provide you with the right technology at the right time. And our enhanced APIs make it easy to offer real-time access to essential shipping services, right from your own website or customer-facing platform. Read more.

GOING THE EXTRA MILE

At Estes, we want to make it easy to streamline your freight operation. That's why our website's Help Guides, Insights, & Videos section offers comprehensive resources like best practices, industry updates, and freight transportation solutions—all in one easy-to-find place. View resources.

We Are Growing! Estes Acquires 11 Terminals

Been There. Shipped That. Need to move your freight in cold weather? Our Protect From Freezing (PFF) service is available for shipments within the U.S. or from the U.S. to Canada and Mexico! Read more.
