DRIVING FREIGHT FORWARD

VIDEO CHAT WITH WEBB ESTES

Our President and COO shares the progress we've made this year to deliver an even better experience for our customers, as well as his vision for 2024. Watch here!

LTL INDUSTRY TRENDS AND INSIGHTS

California Gov. Gavin Newsom recently signed a law that would require big businesses to begin disclosing their emissions by 2026. As a carrier committed to doing right by our customers and the planet, Estes is currently rolling out a new platform to track and report our carbon footprint. And we're in the process of adding to our existing fleet of 12 electric tractors and nearly 300 zero-emission electric forklifts.

THE LATEST FROM ESTES

We did it again! For the second consecutive year, Estes is the only national LTL carrier to improve across each of the top 10 performance categories in the LTL Carrier Customer Value and Loyalty Study, conducted by research company Mastio. And that's not all! This year's study also revealed shippers believe Estes offers the best value of all its national competitors! Learn more.

SHIP SMARTER

Running a business is hard, but shipping your freight shouldn't have to be. That's why Estes puts all the freight shipping resources, FAQ's, and online tools and applications you need in one easy to find place: our estes-express.com website!

GOING THE EXTRA MILE

Estes is proud to be teaming up with Wreaths Across America (WAA) for the 13th straight year, delivering fresh evergreen wreaths to the gravesites of fallen veterans. We salute WAA in its mission to remember the fallen, honor those who serve, and teach the next generation the value of freedom. Learn more.
