DRIVING FREIGHT FORWARD

VIDEO CHAT WITH WEBB ESTES

Our President and COO shares the progress Estes has made so far this year and his excitement for what's on the horizon. Watch here!

LTL INDUSTRY TRENDS AND INSIGHTS

Companies around the world are taking action on climate change, and Estes is proud to be one of them! Partnering with Watershed, a leading enterprise sustainability platform, we're in the process of completing our first-ever carbon footprint analysis and driving initiatives that reduce emissions. Read more.

THE LATEST FROM ESTES

Estes has invested in another capacity expansion that's increasing our number of terminals and adding more essential equipment across our nationwide network. The expansion is also making it possible for us to enhance our already comprehensive next-day coverage! Whether you need next-day shipping, long-haul service, or anything in between—Estes has you covered. Learn more.

SHIP SMARTER

Shipping to Canada? The Canada Border Service Agency has delayed the launch of its CARM client portal to October, giving shippers more time to register. If you have questions about the registration process or need help with your next cross-border shipment, our Canada Customs Brokerage and Border Concierge teams are here to make the process easy. Get started today.

GOING THE EXTRA MILE

Estes' large footprint, comprehensive services, and commitment to going the extra mile for our customers is what sets us apart. From next-day delivery to global freight forwarding, Estes does it all. Watch to learn more.

The Home Depot Award • Sustainability Pathfinder Award • GLT Logistics Award

Been There. Shipped That. This year marks the biggest influx of terminal openings and equipment in recent Estes' history!
