DRIVING FREIGHT FORWARD

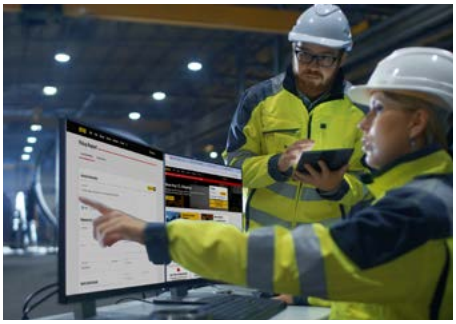

VIDEO CHAT WITH WEBB ESTES

Our President and COO shares the many ways Estes makes freight shipping easy for our customers. Watch here!

LTL INDUSTRY TRENDS AND INSIGHTS

With the increasing demand for even more reliable freight shipping, tracking visibility, and eco-friendly solutions, LTL industry leaders like Estes are investing in more operations technology. Technologies like Samsara's cloud platform enhances our operational efficiency and fuel economy, Optym's AI software optimizes our route and load planning, and PEGA's real-time data ensures accurate shipment tracking. To learn more about technology trends, read here.

THE LATEST FROM ESTES

Estes' award-winning Pickup Visibility application is revolutionizing the freight industry by delivering an even better pickup experience for customers. Its real-time data makes it easy to track every step of the freight pickup process, from initial request to completion. Read more.

SHIP SMARTER

Estes' new and improved My Estes shipping tools make doing business with us easier. Now you can move seamlessly between our Rate Quote, Bill of Lading, and Pickup Request applications without needing to re-enter your freight details multiple times. Log into My Estes or sign up for a free My Estes account to give our shipping tools a try. Learn more.

GOING THE EXTRA MILE

Safety is a core value that's embedded in every facet of Estes' operations—both on and off the road. That's why for the 23rd consecutive year, Estes has been awarded by the American Trucking Association (ATA) for our safety performance across multiple categories. Read more.

Uber Freight Award • C.H. Robinson Award • Echo Global Logistics Award

Been There. Shipped That. Estes is a government-approved carrier and proudly works with agencies to aid in natural disaster preparation and response. To stay up-to-date on any weather impacts to your shipments, sign up for our advisories.
